

## **Attachment 2. Eligible Applicant Documentation**

North San Joaquin Water Conservation District (District) was organized in 1948 under the provision of the Water Conservation District Act of 1931 (Act) as defined in California Water Code (CWC), Division 21. Under the powers granted by the Act the District, it is deemed a public agency in accordance with CWC 10701(a). Pursuant to the authority granted in Division 21, the District has the legal authority to enter into contracts to exercise its power. The District does not have any contracts with other agencies or organizations to ensure performance of the project or tracking of funds.
